LETTER FROM THE PRINCIPAL

Parents and Students,

Prior to reading the list of courses being offered at National Trail High School, it must be understood that much energy and time has been spent in exploring and studying a master schedule that will benefit all students while they attend National Trail High School. During most days, students will complete four (4) eighty (82) minute class periods and a forty-seven (42) minute intervention.

As you plan your High School career, students should choose their subjects with extreme care taking into consideration your abilities, interests, needs, and chosen vocation. You academic plan should meet the requirements for your chosen programs at the Miami Valley Career Technical Center and/or the entrance requirements of your chosen post-secondary plan. Be sure to discuss your educational plans with your parents, teachers, counselors, and any others who are interested in your welfare and who may be qualified to give you advice.

In selecting your subjects, pay particular attention to the fees, prerequisites for admission to a course and to the requirements for receiving credit. It is unwise to take an elective for which you have little aptitude or in which you may have difficulty fulfilling the requirements for credit. At the time of registration, you are expected to accept the responsibility for meeting the special requirements of the electives you choose.

As you develop your four year plan, please do not hesitate to contact your counselor or other school employee to help answer any questions you may have during your time at NTHS.

It’s better to be a Blazer!

The administration reserves the right to alter any information in the program of studies to accommodate an individual's academic pursuits.

All material shared in this document was approved by the National Trail Board of Education in March 26, 2019.

GRADUATION REQUIREMENTS

CLASS OF 2018 and beyond
Students entering the 9th grade for the first time on or after July 1, 2010, will need to meet the
requirements of the ‘Ohio core’. Credit requirements for graduation are as follows:

English 4 credits
Math 4 credits (including Algebra II)
Science 3 credits*
Social Studies 3 credits* (World History, American History, and Government)
Physical Education 0.5 credits
Health 0.5 credits
Business/Computer 2 credits
(CBI can only be used for one business credit. Students may use AG II or any AG III/IV class for both credits.)
Unified Arts 1 credit
(Art, Music, Any Agriculture Class, French, Spanish, Business/Computer, Family and Consumer Science, or Graphic Design class)
Fine Art 1 credit
(Fine Arts include: Band, Steel Band, Choir, Guitar, Music Appreciation, Art and Graphic Design)
Electives 7 credits (CTC students 5 credits)

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

THE FOLLOWING APPLIES TO ALL GRADUATING CLASSES AT NTHS
*Only three credits are required, but four credits are recommended for students who plan to enroll in any
college program after high school.

Students must complete 1 unit of Financial Literacy which is included in Business, Financial
Management I and II, and Government.)

Students following a career-technical pathway are exempted from the fine arts requirement.

Students may NOT participate in the commencement program unless all State Board of Education and
National Trail Local Board of Education standards are met.

Seniors who are at risk of failing a required course for graduation during the 4th grading period of
their senior year may be pulled out of that course and put into National Trail’s APEX online program
and may forfeit their ability to participate in the graduation ceremony.

Students MUST participate in commencement rehearsal to take part in the formal commencement
program. The Principal or Superintendent of Schools must approve exceptions.

In addition to completing the coursework above, in order to graduate, students must successfully
complete one or more of the following options:

1. Earn a cumulative passing score on seven (7) end of course exams (Algebra 1, Geometry,
Biology, American History, Government, English 9, and English 10). Students may also
substitute grades from College Credit Plus courses (Social Studies and Science) in these subjects
for end-of-course state exams.
2. Students must accumulate a minimum of 18 points from scores on their Performance Based Assessments and End of Course exams to become eligible for a diploma. Students must earn a minimum of four points in math, four points in English and six points across science and social studies.

3. Earn a “remediation-free” score in English language arts and mathematics on a nationally recognized college admission exam. The state of Ohio will pay one time for all 11th grade students in the class of 2018 and beyond to take the exam free of charge.

4. Students earn 12 points through a State Board of Education-approved, industry-recognized credential or group of credentials in a single career field and achieve a workforce readiness score on the WorkKeys assessment.

More Information:
1) **Mathematics** units must include one unit of algebra II or the equivalent of algebra II. Exceptions: a) Algebra II is not a requirement for students following a career-technical pathway. However, students still must have four units in mathematics, and b) A family may decide that their child is not prepared to meet the graduation requirement for a higher level math course. Or, their child may be planning a career that does not require higher level math. Algebra II may not be a requirement for this student.

2 **Physical education** - School districts may adopt a policy that would exempt students who participate in interscholastic athletics, marching band or cheerleading for two full seasons or an approved Junior Reserve Officer Training Corps (JROTC) program for two years from the physical education requirement. Students must take another course, which cannot be a physical education course, of at least 60 contact hours.

3 **Science** units must include one unit of physical sciences, one unit of life sciences and one unit of advanced study in one or more of the following sciences: chemistry, physics or other physical science; advanced biology or other life science; astronomy, physical geology or other earth or space science. Exception: A family may decide that their student is not prepared to meet the graduation requirement for a higher level science course. Or, their student may be planning a career that does not require higher level science. Higher level science may not be a requirement for this student.

4 **Social studies** units must include ½ unit of American history and ½ unit of American government in three units required for the classes of 2018 and 2019. The class of 2021 will need ½ unit in world history and civilizations in their required three units as well as American history and American government.

5 **Elective credits** must include one or any combination of foreign language, fine arts, business, career-technical education, family and consumer sciences, technology, agricultural education or English language arts, mathematics, science or social studies courses not otherwise required.

6 **Other state requirements** - All students must receive instruction in economics and financial literacy during grades 9-12 and must complete at least two semesters of fine arts taken any time in grades 7-12. Fine arts is not a requirement for students following a career-technical pathway.

7 **The State Board of Education** may decide to include an algebra II end-of-course examination in place of the algebra I end-of-course exam beginning for students entering ninth grade on or after July 1, 2016.

Many factors will influence a student's final schedule. When making a schedule, consider the following:

- CTC attendance junior and senior year
- CCP participation
- Honors Diploma criteria
- CBI participation junior and senior year
- College admission requirements

Please review the course book and consider the individual student's goals when creating a four year plan.

**SCHEDULING**

Scheduling Timeline:
- In February, course request forms and course guides are distributed to all students.
- Students and parents are encouraged to attend the annual Scheduling Night in February to discuss course selection with teachers.
- Students complete course request forms and turn in to the guidance office by deadline.
- In May, students are given schedules for the following year.
- All necessary changes due to failures will be made after the end of the school year.

Notes regarding credit completion/course offerings:
- National Trail High School will accept credits transferred by transcript from any accredited high school, provided such courses and credits meet State Department of Education and local requirements.
- The high school counselor must approve enrollment for a summer school course at another school in advance.
- The high school principal must approve enrollment for a night school course at the Preble County ESC in advance.
- The administration reserves the right to cancel any course offerings for which there are not sufficient registration/funds.

Requesting a Schedule Change:
The person(s) requesting the revision must submit the proposal to the Guidance Office in writing. Request the schedule change form from the guidance office. Schedule changes must be requested by the first week of school unless by teacher recommendation. A parent and administrator must sign the schedule change request form.

A weighted grading scale will be used for the following courses: all college credit plus courses, Spanish IV, French IV, Pre-Calculus, Calculus, and Physics.
HONORS DIPLOMA

To receive an honors diploma upon graduation, students must meet 7 out of the 8 following criteria.

National Trail High School Honors Diploma Criteria

1. Earn four (4) units of English;
2. Earn at least four (4) units of mathematics which shall include algebra I, algebra II, geometry and another higher level course or a four-year sequence of courses which contains equivalent content;
3. Earn at least four (4) units of science including one unit of physics and one unit of chemistry;
4. Earn four (4) units of social studies (World History, American History, Government, and 60’s/Current Issues or CCP Psychology and Sociology)
5. Earn either three (3) units of one foreign language or two units each of two foreign languages;
6. Earn one (1) unit of fine arts (fine arts include: band, steel band, choir, guitar, music appreciation, art, graphic design)
7. Maintain an overall high school grade point average of at least 3.5 on a four-point scale up to the last grading period of the senior year; or
8. Obtain a composite score of 27 on the American college test's ACT assessment (excluding the optional writing test) or a combined score of 1210 on the College Board's SAT verbal and mathematics sections (excluding the required writing section).

MVCTC Honors Diploma Criteria

1. Earn four (4) units of English;
2. Earn at least four (4) units of mathematics which shall include algebra I, algebra II, geometry and another higher level course or a four-year sequence of courses which contains equivalent content;
3. Earn at least four (4) units of science including one unit of physics and one unit of chemistry;
4. Earn four (4) units of social studies;
5. Earn four (4) units in a career-technical education program that leads to an industry-recognized credential, results in an apprenticeship or is part of an articulated career pathway, which can lead to post-secondary credit. If the student's program design does not provide for any of these outcomes, then the student must achieve the proficiency benchmark established for the applicable Ohio career-technical competency assessment or the equivalent;
6. Achieve the proficiency benchmark established for the Ohio Career-Technical Competency Assessment (available at http://www.webxam.org/info_docs.asp, with additional content available by clicking here) or equivalent assessment aligned with state-approved and industry validated technical standards; or
7. Maintain an overall high school grade point average of at least 3.5 on a four-point scale up to the last grading period of the senior year; or
8. Obtain a composite score of 27 on the American college testing service's ACT assessment (excluding the optional writing test) or a combined score of 1210 on the college board's SAT verbal and mathematics sections (excluding the score obtained on the required writing section)
EDUCATIONAL OPTIONS

**College Credit Plus (CCP):** The Ohio Board of Regents has set forth a new set of rules for PSEO and Dual Enrollment called College Credit Plus. NT students in grades 7-12 will have the opportunity to participate in this new program to earn college credit in a variety of ways. This program has adopted the PSEO and Dual Enrollment programs and has made them into one, so students will have the option of doing coursework here at NT taught by NTHS teachers or going to the college or university of their choice to earn college credits. Interested students and their parents are encouraged to attend the CCP meeting that will be held in February/March each year to enroll in the program. Students must follow the ODE/NTLSD approved guidelines for CCP acceptance. Partnerships with Edison Community College and Sinclair Community College are established.

**Credit Recovery:** Students who are of junior or senior status and are credit deficient may have the opportunity to recover credit through Credit Recovery at NTHS. Approval to participate in Credit Recovery must be granted by the building principal.

**Summer School:** A required subject, which is failed, shall be repeated in summer school. A student and his or her parents are to assume responsibility for seeing that courses are made up. Summer school is offered through the Preble County ESC at the cost of the student and/or parent. Approval to attend summer school must be granted by the building principal.

**Independent Study/ Credit Flex:** A course may be taken with the instructor during non-class times through independent study or credit flexibility. The instructor and principal must approve this instruction method with the student. Information regarding any of these programs is available in the guidance office.

**MVCTC**
National Trail HS students have the option of attending MVCTC (Miami Valley Career Technology Center) their junior and senior years of high school. Students complete the same graduation requirements and receive a National Trail HS diploma. Students who attend CTC receive training in a career field of their choice. This opens up many employment opportunities that the student would otherwise not have. Programs labeled as Tech Prep and successfully completed, will award the student a $3,000 scholarship to Sinclair Community College! Many students also complete college credit through the MVCTC coursework.

Sophomores will apply for admission to CTC during the second semester. Students may see the guidance office for applications or MVCTC course books and course descriptions. More information may be found at www.mvctc.org.

Note: At the conclusion of the sophomore year, the student choosing to attend the MVCTC should have successfully completed 2 credits in the following: English, Math, Science, Social Studies, 2 unified arts (and or fine art- see graduation requirements) business and .5 credits in PE and health.

A list and description of all MVCTC programs can be found at: www.mvctc.com/program
**COLLEGE**
College bound students need to schedule courses appropriate for college preparation and admission. You can go to college! It takes good thinking and good planning. Let everyone know that you want to go to college- your parents, your teachers, and your guidance counselor. The classes that you take in high school are very important. Make sure you are taking courses that fulfill at least the minimum college prep curriculum requirements. Students who complete challenging high school course work prepare themselves to score higher on the ACT and SAT.

The minimum college prep curriculum is as follows: 4 credits of English, 4 credits of math (including Algebra 1, Geometry, and Algebra 2), 3 credits of science, 3 credits of social studies, 2 credits of the same foreign language, 1 credit of fine arts.

Each college is independent of others and may vary the above requirements according to its own standards. It is recommended to take one credit of math and one credit of science in the senior year. To enhance your chances for admission to the university and academic program of your choice, you are encouraged to take the most rigorous curriculum available at National Trail HS. Colleges are looking at students’ transcripts to see the curriculum during all four years of high school. The following areas are used to determine a students’ acceptance into college: core curriculum, cumulative GPA, class rank, ACT/SAT scores, written essays, and teachers’ letters of recommendation.

**COLLEGE AND CAREER READINESS TESTS**
Most colleges require the ACT or SAT as part of the admission criteria. It is recommended that students take one of these tests in the spring of their junior year and again in the fall of their senior year if they would like to try to improve their score. National Trail also offers practice tests to all sophomores.

**ACT Assessment**
The ACT assessment is a national college admission examination that consists of tests in English, mathematics, reading, and science. The ACT consists of multiple choice questions and one optional writing section. The highest possible composite score for the multiple choice section is 36. The highest possible score for the writing test is 12. Students should decide whether to take the ACT writing test based on the admission policies of the postsecondary institutions in which they are interested. For more information and to register, go to [www.actstudent.org](http://www.actstudent.org).

**SAT Reasoning Test**
The SAT reasoning test, like that ACT, is another test used in the college admission process. The SAT assesses how well students analyze and solve problems. The test also provides an independent measure of a student’s college readiness. The SAT test is scored on a 200-800 scale for each of the three sections: Writing, Critical Reading, and Math. For more information and to register, go to [www.collegeboard.com](http://www.collegeboard.com).

**PSAT**
Also referred to as the ‘Practice-SAT’. Sophomores and juniors may sign up to take the PSAT in the guidance office in the fall.

**ASVAB**
The ASVAB is a multiple-aptitude battery that measures developed abilities and helps predict future academic and occupational success in the military and civilian occupations. Interested students may contact a military recruiter to take the ASVAB.

**Work Keys**
WorkKeys is a job skills assessment system measuring "real-world" skills that employers believe are critical to job success. Interested students may sign up to take the Work Keys through the Miami Valley Career Technology Center.

**COLLEGE ATHLETICS**

**Eligibility for Intercollegiate Athletics NCAA or NAIA**

Students interested in playing college athletics may be required to register for the NCAA or NAIA, depending on the college division. Students may register and learn more at [www.ncaa.org](http://www.ncaa.org).

**SCHOLARSHIPS**

Scholarships are mainly available for seniors. There are a few that are offered to underclassmen. Both local and national scholarships are available in the guidance department. As they come in, they are announced via email to all seniors and their parents and on the morning announcements. Scholarship applications can also be downloaded from the High School Guidance Moodle Page. More national ones along with college scholarships are available in the fall. In January, local scholarships start to come in and are due before the end of April. Students may stop by the guidance department at any time to ask for assistance with any of the scholarships.

JOB TRAINING
MVCTC FOR HS GRADS- offers classes for adults (that’s you come May 26th!). Go to MVCTC.com to see a list of certificates and trades for adult students. Many can be completed in less than a year.

Apprenticeship- An apprenticeships is a way of learning a skill, while on the job, from a skilled professional. Often the education needed is covered through the apprenticeship program. See the Miami Valley Building Trades Apprenticeship Group online for more information about local opportunities.

Tech School- For some students, jumping right into a ‘hands on’ approach for the career is what they desire. There are many schools out there that serve this purpose. Resources for this are available at www.techschooldirectory.com, www.technical-schools-guide.com as well as books in the guidance office.

MILITARY RESOURCES
Military Recruiters are available to students and parents to answer questions about this career path. Contact your local recruiter at the following websites:

www.army.mil (Army)
www.navy.cmil (Navy)
www.af.mil (Air Force)
www.marines.mil (Marines)
www.ng.mil (National Guard)

STUDENT ACTIVITIES AND CLUBS

Art Club
Art Club is an organization which enables creative expression beyond the classroom. Workshops in various media are explored. Club members determine the areas of interest for a given year. Club members participate in fundraising (usually two events) to pay for the cost of materials for workshops.

Band
Band is open to any student who has developed the proficiency on his/her instrument and the understanding of music needed to perform in the band setting. All band students will participate in concert band, and pep band. Marching band information is listed below. In concert band, students will prepare for three concerts, solo and ensemble contest, Veteran’s Day program, all-county band, honor bands, district and state competitions, Memorial Day concert/parade, and the graduation performance. All band students will also participate in pep band, which performs at all home varsity boys’ basketball games.

Concert Choir
Concert Choir is a full-year educational commitment open to all students who are interested in singing and performing. Emphasis is placed on the basics of proper individual and group singing including posture, tone, intonation, blend and balance. Students perform a variety of choral literature representing various styles. The Choir will perform concerts throughout the year and other requested engagements for which attendance is mandatory. After-school activities and practices are integral to the course.

Class Officers
The class officers are the representatives of your class. Each class has four representatives: a president, a vice president, a secretary, and a treasurer. You can run for class officer, they have an annual election every year. The class officers do all the planning of your classes events such as prom, homecoming, spirit week, and other things. Class officers are always open for ideas so if you have any please tell them.

Drama Club
The Drama club has brought you such productions as Death of a Doornail and Oz. Students will perform in one to two performances during the course of the school year.

FCCLA
Family, Career and Community Leaders of America is a dynamic and effective national student organization that helps young men and women become leaders and address important personal, family, work and societal issues through family and consumer sciences education. Chapter projects focus on a variety of youth concerns, including teen pregnancy, parenting, family relationships, substance abuse, peer pressure, environment, nutrition and fitness, teen violence and career exploration. Involvement in FCCLA offers members the opportunity to expand their leadership potential and develop skills for life -- planning, goal setting, problem solving, decision making and interpersonal communication -- necessary in the home and workplace.

FFA
Our National Trail FFA Chapter is a student organization for male and female students of Agricultural Education. The FFA is known as an intra-curricular organization that is directly related to high school classroom and lab instruction. The FFA’s mission is to make a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agricultural education. Agricultural Education prepares students for successful careers and a lifetime
of informed choices in the global agriculture, food, fiber and natural resources systems and many other related career choices. Students will have the opportunity to compete in numerous FFA contests and travel to FFA Conventions and Conferences. Our FFA members have traveled and competed in places like Columbus, Indianapolis, Oklahoma City and Springfield Massachusetts! Come join us for your opportunity.

World Language Club
The Foreign Language Club is open to all Spanish and French Students. In May, the Foreign Language Club holds the Foreign Language Dinner that allows students to observe different cultures and experience new foods.

Marching Band
Marching Band is an option for all band students and is also open to 8th grade students. Marching Band performs at all HS football games, home and away, as well as OMEA band contests. The group also performs at various local parades and community events. Every four years, the Marching Band travels to Florida to perform in Orlando. Marching Band season runs from July through October, and requires two after-school practices each week, along with a week of band camp in July or August.

National Honor Society
Students are selected for membership through an established school chapter in secondary public and accredited private schools by a five member Faculty Council. Candidates must meet the chapter's requirement for scholarship, service, leadership and character in order to be selected for membership.

Quiz Bowl
Quiz bowl is a family of games of questions and answers on all topics of human knowledge, commonly played in high school and college. The game is played with a lockout buzzer system between some number of teams, most commonly two teams of four players each. A moderator reads questions to the teams, whose players endeavor to buzz in first with the correct answer, scoring points for their team. Students will compete with other schools in Preble and Darke County. The students will be required to compete in over half of the matches to earn an academic letter. Students will answer questions in various areas of academic studies.

Renaissance Club
Renaissance inspires the acceptance and excitement for academics that's traditionally reserved for athletics. Renaissance Club aims to increase student performance and teacher enthusiasm, and to raise the level of community participation in schools. All students and teachers are encouraged to participate in Renaissance to help improve academic performance. Students benefit from the program because it raises the profile of academics and makes it cool to do well in school. Teachers often cite Renaissance as the source of renewed enthusiasm about their profession. Renaissance also encourages the involvement of parents and local businesses. In fact, many of the awards given to students to recognize their academic achievements come from local businesses, including discounts on goods and services.

Science Olympiad
The Science Olympiad is a national nonprofit organization devoted to improving the quality of science education, increasing student interest in science and providing recognition of outstanding achievement in science education by both students and teachers. These goals are accomplished through classroom activities, research, training workshops and the encouragement of intramural, district, regional, state and national tournaments. The Science Olympiad Tournaments are academic interscholastic competitions, which consist of a series of twenty-three individual and team events students prepare for during the year. These challenging and motivational events are well balanced between the various science disciplines of biology, earth science, chemistry, physics, computers, and technology. There is also a balance between events requiring knowledge of science facts, concepts, processes, skills and application.
Steel Band
HS Steel Band is a full-year educational commitment. Students will learn to play the steel drums and steel band music as they prepare for multiple performances. Students will learn a variety of musical styles including soca and calypso. Students are required to participate in all steel band activities including rehearsals, performances, and events.

Student Council
The Student Council plays a very important role in every school. They help share students’ ideas, interests, and concerns with the teachers and principal. They help the students raise funds for school wide projects. They assist the community when they are in need of aid. Being on Student Council is something that will help our students become responsible and active members of the community.

Winter Guard
Winter Guard is an indoor color guard activity derived from marching band. Unlike traditional color guard, winter guard is performed indoors, usually in a gymnasium or an indoor arena. Performances make use of recorded music rather than a live band or orchestra.

Agriculture

Enrollment in our Agricultural Education courses is open to both male and female students. Students do not need to live on a farm to participate in the program, but are expected to become active members of the National Trail FFA Chapter and to complete a supervised agricultural experience type project with guidance from the Ag instructor. The Ag. Ed. Program is a satellite program of MVCTC and includes classroom and lab instruction, FFA activities and Supervised Agricultural Experience projects. Note: The State of Ohio is requiring new pathways in career tech programs that may require additional inclusions or deletions to the following courses this upcoming school year.

Agriculture, Food and Natural Resources (AFNR)  
Credit: 1.25
Prerequisite: Students must be a freshman or 1st year AG student
Lab Fee: $15.00  
FFA Dues: $20.00 (Paid to National Trail FFA Treasurer)

This first course in the career field is an introduction to Agricultural and Environmental Systems. Students will be introduced to the scope of the Agricultural and Environmental Systems career field. They will examine principles of food science, natural resource management, animal science & management, plant & horticultural science, power technology and bioscience. Students will examine the FFA organization and Supervised Agricultural Experience programs. Throughout the course, students will develop communication, leadership and business skills essential to the agriculture industry.

Greenhouse and Nursery Management  
Credit: 1.25
Prerequisite: Agriculture, Food and Natural Resources

Students will learn the operational practices needed for the successful growth of nursery stock and/or greenhouse plants. They will learn essential greenhouse practices including water and fertilizer distribution, lighting, ventilation and temperature control. Students will learn pest and disease identification and control along with biosecurity practices. Students will demonstrate knowledge of propagation methods, plant health, nutrition, and growth stimulation. Throughout this course, business and employability skills will be emphasized.

Animal Science and Technology  
Credit 1.25
Prerequisite: Agriculture, Food and Natural Resources

Students will learn and apply reasonable animal management principles and routine husbandry practices. Topics will include nutrition, feeding, and caring for animals, body/carcass composition evaluation, and applying marketing principles to the sale and distribution of animal products. Learners will investigate animal genetics and how it impacts principles of animal improvement, selection and marketing. Throughout the course, learners will develop business leadership, problem-solving and communication skills in relation to the science of animals.

Business Management for Agricultural and Environmental Systems  
Credit 1.25
Prerequisite: Agriculture, Food and Natural Resources

Students will examine elements of business, identify organizational structures and apply management skills while developing business plans, financial reports and strategic goals for new ventures or existing businesses. Learners will use marketing concepts to evaluate the marketing environment and develop a marketing plan with marketing channels, product approaches, promotion and pricing strategies. Throughout the course, students will apply concepts of ethics and professionalism while implications of business will be identified.

^MAN1107: Foundations of Business (No additional high school credit)

^Credit Hour(s) 3  
Agricultural Education MVCTC Satellite Tech Prep

- The American business system and basic principles of the free market system. Includes introduction of business concepts, entrepreneurship, management, marketing, economics, accounting and other important business principles.
Mechanical Principles
Prerequisite: Agriculture, Food and Natural Resources
Students will engage in the mechanical principles utilized in animal and plant production systems. They will learn electrical theory, design, wiring, hydraulic and pneumatic theory along with metallurgy in relation to hot and cold metals. Students will apply knowledge of sheet metal fabrication applicable to the agricultural industry along with identify, diagnose, and maintain small air-cooled engines. Throughout the course, students will learn critical components of site and personal safety as well as communication and leadership skills.

Agricultural Capstone
Prerequisite: Must be a 3rd or 4th year Agricultural Education Student or Teacher Approval
Students apply Agricultural and Environmental Systems program knowledge and skills in a more comprehensive and authentic way. Capstones are project/problem-based learning opportunities that occur both in and away from school. Under supervision of the school and through partnerships, students combine classroom learning with work experience to benefit themselves and others. These can take the form of mentorship employment, cooperative education, apprenticeships and internships.

Art
Art I
Prerequisite: None
Lab Fee: $30.00
Art I is a basic course in art. Instruction will be given in drawing techniques including the use of pencil, proper perspective, and shading. Students will also explore the use of pastels, colored pencil, and pen and ink. Elements and principles of design will be introduced, including balance, line, movement, texture, shape, color, rhythm, and contrast.

Art II
Prerequisite: Art I
Lab Fee: $30.00
Color will be explored including watercolor and colored pencil. Students will also work on 3 dimensional projects. The class will be divided into small groups for instruction in pottery. Students will also be introduced to various artists and their work.

Art III
Prerequisite: Art II
Lab Fee: $30.00
This course develops advanced techniques in drawing, oil painting, printmaking, and sculpting. Students will learn to put together an art display and are required to put together a portfolio. Composition, problem-solving, and originality of ideas are stressed.

Art IV
Prerequisite: Art III
Lab Fee: $30.00
Students will refine their skills in the areas of drawing, painting and 3 dimensional media. Students will also explore computer graphics. Students will be given the opportunity for in depth study of an area of interest and to refine their design skills in that area. The student will be required to submit a portfolio and put together a senior display.
Graphic Design
Prerequisite: Junior or Senior standing and must have passed Art I with at least a C+ and/or have signed teacher approval.
Lab Fee: $25.00
This course introduces the student to simple image manipulation on the computer. Basic drawing tools and their use are presented, along with projects designed to allow the student to use these tools creatively. The elements and principles of art are taught as a basis for good design. Techniques for manipulating text and graphics to create effective designs that work in page layouts are covered. Students learn basic typography while exploring type as an art form or a means to convey a message. Design for multimedia presentations and web design are also covered. This course may count as (1) credit of Fine Art.

Business and Computer Education
The following Agriculture courses found on page 20 will also count towards the two (2) required Business graduation requirements.
Animal and Plant Science
Business Management for Agricultural and Environmental Systems
Mechanical Principles

Introduction to Business
Prerequisite: None
Fee: None
This course provides instruction on the business practices that everyone will experience in her or his personal life. The course will provide an understanding of business practice important to everyone as a consumer including technology, world trade, banking, investments, the role of the consumer, budgeting, credit, insurance, and career.

Computer I
Prerequisite: Freshmen only - Required for all freshmen
This is a one semester course designed for the study of advanced word processing, spreadsheet, and presentation software. It also includes graphics, the collection & input of data, as well as looks at the ethical, legal & social issues involving computer applications in business. Software will include the Microsoft Office 2010 (Word, Excel, Publisher and PowerPoint) and a variety of advanced multimedia tools.

Computer Hardware
Prerequisite: Earn 85% in Computer Applications/Signed Technology Coordinator Approval
Fee: None
Computer Hardware emphasizes PC architecture, design, and maintenance. The emphasis on practical applications helps teach students to learn independent troubleshooting and repair techniques by supporting different technologies throughout the district. Students also follow a textbook on the Microsoft A+ certification and do research projects, presentations, and writing assignments throughout the year.

Advanced Technology Applications I/II
Prerequisites: Earn 85% in Computer Hardware/Signed Technology Coordinator Approval
Fee: None
Advanced Technology Application is designed to implement the practical skills learned in Advanced Computer Technologies and Design. Students will be assigned open available course periods to assist the Technology Coordinator. Tasks will include computer repair, software development, web design, network maintenance, as well as district multimedia projects. Students will be expected to attend several group meetings throughout the school year. Writing assignments, courseware setup, and PowerPoint projects are also required. Advanced Technology Applications (ATA) II includes all requirements of ATA with the inclusion of a mentoring program for ATA students. ATA II students will also be team leaders for technology-based projects.
Accounting I  
Prerequisite: None  
Fee: $24.00  
This course will introduce the basic principles of accounting such as recording journals, posting to ledgers, preparation of financial statements, and the process of closing books. Learning the vocabulary, understanding the fundamental accounting procedures are major aspects of the course. A learn by doing approach is stressed with lots of practical application.

Accounting II  
Prerequisite: Accounting I  
Fee: $24.00  
This course is a continuation of Accounting I, but will go into greater detail including aspects of corporate accounting and automated accounting. Computerized accounting methods will be taught including some spreadsheet applications.

CBI Related (classroom)  
Prerequisite: Junior Standing  
Fee: $3.00  
The course helps students develop employable skills, implement a career plan, and participate in a career pathway. Instruction includes problem solving, communicating effectively, applying technology, work responsibility, planning and managing a career, and resource management. In order to be considered for CBI students must qualify. See Mr. Ferguson with questions.

CBI (work)  
Prerequisite: Concurrent registration in CBI Related and must be a Junior or Senior  
Fee: None  
Work-based learning consists of paid work experience and/or non-paid work-based learning. Every 120 hours of work will earn 1 credit. A maximum of 4 credits may be earned. Students must qualify for CBI Related. **Students who enter the program must qualify either financially or be academically.**

Work Study  
Prerequisite: Acceptance into program  
Fee: None  
Work Study is a way a student may receive academic credit toward graduation by working or volunteering in the community. A student may earn up to one credit for each 120 hours she/he works. The Work Study credit counts as elective credit; it cannot take the place of required credits such as English, Math, Science and Social Studies. Whether or not a student will be eligible to receive Work Study credit is a team decision. Freshmen and sophomores can earn up to 2 credits per year and Juniors and Seniors can earn up to 4 credits per year.

English  
English 9  
Prerequisite: None  
Fee: None  
A variety of types of literature are studied. Grammar and vocabulary skill development is emphasized. Students will write essays with the focus on college composition preparation.

Freshman Literature and Writing  
Prerequisite: None  
Fee: None  
This course is for those students with a sincere desire to learn and compete with highly motivated students who love challenging literature and welcome creative writing assignments and advanced vocabulary development.
English 10
Prerequisite: English 9 or Freshman Literature and Writing
Credit 1
Fee: None
Students will develop reading, writing, speaking, listening and viewing skills through the study of language and literature. An emphasis is placed on the study of literature that makes connections with the past, present, and future. Students will explore themes which reflect the concerns of different cultural societies and how they relate to everyday living. The curriculum will also emphasize character-based education as a means to help students develop an understanding of decision making and leadership skills. Written and oral projects include literary analysis, technical, persuasive and personal essay formats.

English 11
Prerequisite: English 10
Credit 1
Fee: None
American Literature is the focus, beginning with Colonial American texts and continuing through post-modern works. Literature, film, music, and other manners of texts will be read and analyzed. Writing will focus on persuasive writing, comparison papers, formal research papers, and short stories. The focus is on college composition preparation.

English 12
Prerequisite: English 11
Credit 1
Fee: None
The emphasis is on British Literature, beginning with the Anglo-Saxon era and continuing through the post-modern era. Students will write essays with a focus on voice, learn to analyze film as a text, compare and contrast differing texts, and fine-tune their research writing skills. Focus is on college composition preparation and writing after high school, including resumes and letters of intent. English 12 also includes the first half of senior project. The National Trail Senior Project program offers students the opportunity to practice real world skills that the business world and universities have asked high school educators to provide. First semester expectations include developing a topic, researching that topic, beginning to search for a mentor, and completing the senior project research paper. Also note that the final presentation grade counts as the final exam grade for English 12.

ENG 121S English Composition I- 1st semester
*Credit Hour (s) 3 → College Credit Plus Course*
Prerequisite (s): Has completed all NTHS requirements and/or teacher approval.
Study and practice of essay writing by reading published authors and producing college-level writing for a variety of audiences and purposes. Employs critical thinking and analytical skills in both formal and informal writing. Formal writing is based on reporting information, narration, analysis, and research. All writing will stress Standard English, organization, and style.

ENG122S English Composition II- 1st semester
*Credit Hour (s) 3 → College Credit Plus Course*
Prerequisite (s): Has completed ENG 121S and all NTHS requirements and/or teacher approval.
Study and practice of essay writing, including formal essays, reviews, and research papers, based on the study of logic and library research. Writings will stress organization, argument, referencing techniques, and the use of Standard English.

ENG 232S Fiction Writing- 2nd semester
*Credit Hour (s) 3 → College Credit Plus Course*
Prerequisite (s): Has completed ENG 121S and all NTHS requirements and/or teacher approval.
Study of the techniques necessary to write short fiction. Students will create, polish and workshop original work, while learning the essential techniques of short fiction-plot, character, narrative, setting, point-of-view, and scene.
ENG 123S Introduction to Literature - 2nd semester
*Credit Hour(s) 3  → College Credit Plus Course*

Prerequisite(s): Has completed ENG 121S and all NTHS requirements and/or teacher approval.
Study in the reading of fiction, poetry, and drama. Students will learn to respond to literature from a critical perspective through both class discussions and assigned writings. For seniors, this class also includes the first half of senior project. The National Trail Senior Project program offers students the opportunity to practice real world skills that the business world and universities have asked high school educators to provide. First semester expectations include developing a topic, researching that topic, beginning to search for a mentor, and completing the senior project research paper.

Creative Writing 1
Prerequisite: None
Fee: None
This course is an introduction to the world of creative writing. Students will explore both poetry and prose, beginning with poetry and ending with literary short stories. Class is set up as a workshop with students providing feedback on one another’s work and the teacher serving as discussion leader. Emphasis is on getting the student’s feet wet in relation to writing creatively. This course is typically taken in tandem with Creative Writing 2.

Creative Writing 2
Prerequisite: None
Fee: None
A continuation of Creative Writing 1, students will continue to nourish a budding writing style. Assignments will be more challenging and often student-created with the teacher signing-off on certain projects and coming up with the others. Focus is on student creativity and preparing works for publication.

Literature in Film I & II
Prerequisite: English 9
Fee: None
This course is designed for students to have the opportunity to develop and enhance their listening and observation skills and their appreciation for good literature by viewing, discussing, and comparing the cinematic (movie) adaptations and representations of various popular, contemporary, and classic works of literature. Viewing film versions of various short stories, novels and plays that we read will provide students the chance to experience these worthwhile literary works in a medium that is more familiar and will allow for more complete understanding of, and appreciation for, the original, written form.

Yearbook
Pre-requisite: Junior or Senior standing
Fee: None
Yearbook- This course has been designed for a variety of purposes in order to allow students to improve skills in different areas of mass communications. This course provides an overview of the basic concepts of communication and the skills necessary to communicate in various contexts. Emphasis is placed on communication theories and techniques used in interpersonal group, public, intercultural, and mass communication situations. Upon completion, students should be able to explain and illustrate the forms and purposes of human communication in a variety of contexts. Included within this course will be the production of the high school annual (the yearbook), and proper production of public speaking.

Family and Consumer Science
Personal Financial Management
Prerequisite: Freshmen only, taken 1st or 2nd semester opposite of Computer I.
Fee: $5.00
In this course, students will develop personal financial plans for individual personal well-being. Throughout the course, students will develop financial literacy skills to provide a basis for responsible citizenship and career success. Additional topics will include analyzing services from financial institutions, consumer protection, investing, and risk management.
Nutrition and Wellness

Prerequisite: Sophomore standing, 1st or 2nd semester, taken opposite of Phys Ed.

Fee: $25.00

In this course, students will use principles of nutrition to ensure a healthy body throughout the lifecycle. An emphasis will be placed on planning and preparing meals with an understanding of nutrients and their benefits, portion control and dietary needs. Additional information will include steroid and supplemental use, body weight and management and the implementation of physical activity to maintain a healthy lifestyle.

Child Development

Prerequisite: Juniors and Seniors, 1st semester

Fee: $5.00

In this course, students will study the principles of child growth, development and behavior. An emphasis will be placed on the cognitive development of a child and sensory and motor skills. Additional topics will include childhood diseases, immunizations, and theories of development, learning styles, and evaluating childcare services.

Textile Design, Construction and Maintenance

Prerequisite: Junior or Senior, 2nd semester

Fee: $20.00

In this course, students will study the visual appearance of fabric and fashion design. Students will identify, analyze and apply production processes and techniques to textiles. Additional topics will include the maintenance and alterations of textiles products, including home interior accessories and garments.

Interior Design, Furnishings and Management

Prerequisite: Junior or Senior, 1st semester

Fee: $5.00

In this Family and Consumer sciences career field course, students will examine design principles used in residential interiors. An emphasis will be placed on incorporating anthropometrics, ergonomics and psychological responses. Additional topics will include the selection and organization of furnishings, floors and wall coverings in living spaces, kitchens and baths.

Global Foods

Prerequisite: Junior or Senior, 2nd semester

Fee: $25.00

In this course, students will compare cuisines, ingredients and preferred cooking methods of various cultures. The influence of traditions and regional and cultural perspectives on food choices and culinary practices will be emphasized. Students will examine the issues and conditions that affect the availability and quality of food in the global market, and apply advances cooking techniques, including the use of specialty and advanced equipment in the preparation of food dishes.

ACT Prep Course

Prerequisite: Required for all Juniors

Fee: $25.00

The ACT Prep class is intended to help students know what to expect when taking the ACT test. During this semester class, students will explore strategies for taking the ACT test. When students know what to expect on the test, it can reduce nervousness and possibly improve scores. In addition, the class will explore possible college choices and college readiness. Students will also begin looking at possible scholarships that are available for application during their senior year.
Foreign Language

French I
Prerequisite: None
Fee: $13.00
This course is a comprehensive study of the fundamentals of the French language. The course is introduced with oral practice after which grammar and vocabulary are added. The communicative approach is emphasized thereby giving the students frequent opportunity for listening, speaking, writing, and reading the language. Course study will also include French culture, geography, and history.

French II
Prerequisite: French I
Fee: $14.00
This course is the continuation of French I. It consists of further practice in speaking, listening, reading, and writing in French. Classroom activities and projects provide students practice interpreting, and expressing meaning with frequent interaction with peers.

French III
Prerequisite: French II
Fee: $10.00
This class is a continuation of French II. Communication is stressed, along with a more detailed study of vocabulary and grammatical structure. Students will give oral and written reports in the language and will continue to become more proficient in the language. Students will study important French literature throughout the course and will be expected to interact using the French language.

French IV
Prerequisite: French III
Fee: $10.00
This weighted course consists of reading a more advanced level of authentic French texts, literature and poetry. It will help prepare the student for college level French as emphasis will be placed on reading comprehension and writing in the language. Discussion as a response will also be emphasized.

Spanish I
Prerequisite: None
Fee: $12.00
This course is a comprehensive study of the fundamentals of the Spanish language. The course is introduced with oral practice after which grammar and vocabulary are added. The communicative approach is emphasized thereby giving the students frequent opportunity for listening, speaking, writing, and reading the language. Course study will also include Spanish culture, geography, and history.

Spanish II
Prerequisite: 75% average in Spanish I and/or Instructor’s Approval
Fee: $13.00
This course is a continuation of Spanish I that stresses communication, along with a more detailed study of vocabulary and grammatical structures. Students at this level will be expected to interpret basic authentic texts, give written and oral reports, and communicate interpersonally in the language.

Spanish III
Prerequisite: 75% Average in Spanish II and/or Instructor’s Approval
Fee: $13.00
This course is a continuation of Spanish II. Communication is stressed, along with a more detailed study of vocabulary and grammatical structure. Students will give oral and written reports in the language and will continue to become more proficient in the language.
Spanish IV  
**Prerequisite: 75% Average in Spanish III and/or Instructor’s Approval**  
Fee: $10.00  
This **weighted** course consists of reading a more advanced level of authentic Spanish texts, literature and poetry. It will help prepare the student for college level Spanish as emphasis will be placed on reading, writing, listening, and speaking in the language. Discussion as a response will also be emphasized.

**Health and Physical Education**

**Health**  
**Prerequisite: None**  
Fee: $1.25  
This year we will start with health topics closely related to the growing body. Units that we will explore will be the following; CPR and First-Aid, Nutrition, Alcohol, Drugs, and Tobacco, Life Cycle, and Lifestyle and STD’s. These units will help you understand how the human body grows and affects the environment around you.

**Physical Education I**  
**Prerequisite: None**  
Fee: None  
This year we will begin to learn more than skills and execution of skills. The focus will be on concepts of games along with the strategies to make for more exciting and meaningful activities. Units that will be covered are the following; Ultimate Frisbee, Indoor/Outdoor Soccer, Football, Softball, Volleyball, and Basketball. Students will have the opportunity to gain knowledge and motor skills to live a physically active lifestyle.

**Physical Education II**  
**Prerequisite: PE I**  
Fee: None  
This is the second course in the physical education program. Students will participate in the following activities: team sports, organized games and recreational sports.

**Advanced Physical Education I**  
**Prerequisite: 85% average in PE I and II**  
Fee: None  
The premise of this class is to instill teamwork and good sportsmanship into each individual student. The activities include: ultimate frisbee, softball, football, soccer, volleyball, basketball, hockey, and fitness. Accelerated exercise routines that demand students being physically challenged are instituted in Advanced PE I and II.

**Advanced Physical Education II**  
**Prerequisite: 85% average in PE I and II**  
Fee: None  
Advanced PE II is designed for individual sports and activities. The premise of the class is to instill lifelong activity and wellness into each individual student. The activities will include cardiovascular fitness, weight training, core training, court sports, and recreational sports and activities. Accelerated exercise routines that demand students being physically challenged are instituted in Advanced PE I and II.

**Fitness and Kinesiology I**  
**Fitness and Kinesiology II**  
**Prerequisite: 85% average in PE I and II**  
Fee: None  
These two semester classes will complete a mesocycle of strength training from the hypertrophy phase to the power phase of strength training. The student will learn various lifting techniques, weight training principles, anatomical facts, and nutrition information that will improve weight training success. Each student will develop and implement a personal weight training program.
**Mathematics**

**Algebra I**
**Credit 1**

**Prerequisite: Freshman standing**
**Fee: None**
Algebra I will study numbers and the axioms of Algebra. Emphasis will be placed upon working with real numbers, variables, solving equations, inequalities, working with polynomials, factoring polynomials and problem solving. A calculator is required.

**Geometry**
**Credit 1**

**Prerequisite: Algebra 1**
**Fee: None**
Both plane and solid geometry are studied in this course. Students will study proofs by induction and deduction, angle relationships, parallel lines, congruent triangles, polygons, circles, and coordinate geometry.

**Algebra II**
**Credit 1**

**Prerequisite: Geometry**
**Fee: None**
First and second degree equations, functions, relations, factoring polynomials, solving systems of linear, quadratic and irrational equations, radicals and imaginary numbers, conics, probability, statistics and trigonometry are studied. A graphing calculator is required.

**Pre-Calculus**
**Credit 1**

**Prerequisite: Algebra 2**
**Fee: None**
Students will develop skills in this course to solve, graph, and evaluate the domain and range for functions involving rational, irrational, polynomial, trigonometric, exponential, and parametric equations. Students will solve systems of equations; use logarithmic matrices, sequences and series. Students will also learn to apply trigonometric laws to solve triangular theory problems. A graphing calculator is required.

**MTH128S Pre-Calculus- Year Long**
**Credit 1**

*Credit Hour (s) 5 ➔ College Credit Plus Course*

**Prerequisite: Has completed all NTHS requirements and/or teacher approval.**
Survey of polynomial, rational, radical, exponential, logarithmic, trigonometric, and inverse trigonometric functions and their graphs, with associated algebraic techniques. Topics also include systems of equations, inequalities, elementary matrices, basic trigonometric ratios, trigonometric identities and equations, vectors, polar coordinates, complex numbers, comics, sequences and series.

**MTH 221S Calculus and Analytical Geometry I- Year Long**
**Credit 1**

*Credit Hour (s) 5 ➔ College Credit Plus Course*

**Prerequisite: Has completed all NTHS requirements and/or teacher approval.**
Introduction to differential and integral calculus. Includes differentiation and integration of algebraic and transcendental functions with applications to science and engineering.

**Calculus**
**Credit 1**

**Prerequisite: Pre-Calculus**
Students will learn applications of trigonometric functions, sequences, series, limit logarithmic functions, matrices, vectors, linear transformations, derivatives, integrals and graphing three-dimensional space. This course is designed for students studying for a career in the areas of mathematics and science. A graphing calculator is required.

**Probability & Statistics**
**Credit 1**

**Prerequisite: 3 years of Math**
Probability & Statistics will enhance problem solving, reasoning, and critical thinking by taking students through a more advanced study of algebra, geometry, Trigonometry, & probability and statistics.
Personal Finance  
**Credit 1**
**Prerequisite:** 3 years of Math and/or teacher approval
Mathematics of Personal Finance focuses on real-world financial literacy, personal finance, and business subjects. Students apply what they learned in Algebra I and Geometry to topics including personal income, taxes, checking and savings accounts, credit, loans and payments, car leasing and purchasing, home mortgages, stocks, insurance, and retirement planning.

Transitional Math for seniors  
**Credit 1**  
**Prerequisite:** 3 years of Math, must be a senior and/or teacher approval
This fourth year math course will cover real world math topics that will be important for practical matters beyond high school. The goal of the course is to provide seniors with the math skills for real-world living. Topics covered include: Budgeting, Shopping, Taxes, Annuities, 401K plans, Bonds, Stocks, Mortgages, and Loans. In addition, fractions, decimals, and percentages in everyday life situations will be taught. Topics also include managing bills, paychecks, online banking, and bank accounts. In addition, area and angles in regards to building practical materials and remodeling buildings is discussed.

Music  
**Band**  
**Credit 1**  
**Prerequisite:** Director Approval  
Fee: $20.00
Band is open to any student who has developed the proficiency on his/her instrument and the understanding of music needed to adequately perform his/her part in the band setting. Students planning to join band with little experience must take private lessons over the summer to gain the skills necessary to join the band. Marching Band meets during the school day as well two days a week after school but is not required for Concert Band. Students will prepare for three concerts, solo ensemble contests, Veteran’s Day program, all-county band, honor bands, district and state competitions, Memorial Day concert/parade, and the graduation performance. This course requires after-school participation. Self-confidence, discipline, teamwork, and pride in the band are important aspects of the course.

Guitar I  
**Credit 0.5**  
**Prerequisite:** No prior guitar experience  
Fee: $15.00
Guitar I is intended for students with no prior guitar experience. This course is designed to introduce students to the fundamentals of the guitar. Guitar instruction will emphasize basic technique, music reading, progressions, and music theory. Music literature will be selected from classical and contemporary repertoire. Students with prior guitar experience will not be permitted to take this course.

Ukulele  
**Credit 0.5**  
**Prerequisite:** No Prior Ukulele Experience  
Fee: $15.00
Ukulele is a semester course offered at NTHS for students in grades 9-12. Ukuleles have gained recent popularity all over the country because of their ease of playing, wonderful sound, portability, and musical versatility. This class will introduce students to the basic techniques of playing the ukulele. Students will learn how to read ukulele chord charts, tablature, and will be introduced to the basics of reading music. Students will play popular Americana songs, which utilize and demonstrate the skills taught in class. No previous music knowledge necessary!

World Music  
**Credit 0.5**  
**Prerequisite:** None  
Fee: $15.00
World Music is a semester course offered at NTHS for students in grades 9-12. Students will perform on various hand drum instruments of varying style and ethnic backgrounds. Students will learn hand-drumming techniques, improvisation and ensemble skills, traditional ‘call and response,’ aural learning, and various notation and phonetic systems. Topics will include music reading skills, technique, and general musicality. Students will work as a group and increase their ability to creatively collaborate for group performances. No music background is required for this course.
Music History and Appreciation
Credit 0.5
Prerequisite: None
Fee: None
Students will develop an understanding and appreciation for all genres of music. Through the use of textbooks, listening examples, and lectures, students will develop the ability to recognize various types of music, categorize instruments, read musical notation, and make thoughtful criticism of musical works. Students will also study the history of music, including time periods, terms, and composers.

HS Steel Band- Beginning
Credit 1
Prerequisite: Director Approval
Fee: $31.00
HS Steel Band is a full-year educational commitment. Students will learn to play the steel drums and steel band music. Students will learn a variety of musical styles including soca and calypso. This is a skill building course and currently is a non-performance group.

Advanced Steel Band
Credit 1
Prerequisite: Director Approval
Fee: $31.00
Advanced Steel Band is a full-year educational commitment. The prime objective of this group is to play independently and in an ensemble while demonstrating technical and stylistic accuracy and musical expressiveness. Students will be introduced to a more advanced repertoire, which will also include improvisation. Advanced Steel Band performs concerts throughout the year and other requested engagements for which attendance is mandatory.

Concert Choir
Credit 1
Prerequisite: Director Approval
Fee: $15.00
Concert Choir is a full-year educational commitment open to all students who are interested in singing and performing. Emphasis is placed on the basics of proper individual and group singing including posture, tone, intonation, blend and balance. Students perform a variety of choral literature representing various styles. The Choir will perform concerts throughout the year and other requested engagements for which attendance is mandatory. After-school activities and practices are integral to the course.

Science
Students must complete 1 credit from the Physical Science grouping, 1 credit from the Life Science grouping and 1 credit from any of the 3 science groupings.

Physical Science Requirements

Physical Science
Credit 1
Prerequisite: None
Fee: $8.00
The properties of matter and energy are the focus of this course. The composition of atoms and how they combine and interact will be studied. Related topics include acids, bases, bonding and household chemicals. Additional topics include: simple machines, forms of energy, electricity, light, and how energy is transferred.

Chemistry
Credit 1
Prerequisite: Geometry
Fee: $15.00
This course is a basic study of matter, and the changes that matter undergoes. Major topics include history, stoichiometry, quantitative and qualitative analysis, reaction theory, and the fundamentals of inorganic and organic chemistry. The laboratory work is designed to improve basic skills of scientific inquiry and give a better understanding of chemical reactions.
Physics  
**Prerequisite:** Concurrent with Pre-Calculus or Calculus, Minimum of ‘C’ average in Algebra II  
Fee: None  
This weighted course is the study of the mechanics of heat, electricity, magnetism, and light as well as a unit in modern physics referred to as atomic or nuclear physics. Basic ideas and unifying principles are stressed. A student completing the course should view physics as interdependent with other sciences and have gained an understanding of the natural laws of controlling events happening in the world today. A minimum of a ‘C’ average in Algebra II is required.

**Life Science Requirements**

**Biology**  
**Prerequisite:** Physical Science or Instructor Approval  
Fee: $10.00  
Biology is the foundational study of all life sciences. Early topics begin with a review over scientific method, as well as biochemistry, and quickly move into the study of cells and microbiology. Once mastery of these topics has been achieved, investigations into DNA, patterns of genetics, heredity, ecology, and evolution are undertaken in order to better explain the diversity of life. Completion of this course is required for any further life sciences. Lab work is required.

**Anatomy and Physiology**  
**Prerequisite:** Biology and/or concurrent with Chemistry  
Fee: $20.00  
A Biology grade no lower than a ‘C’ must be earned. This advanced course emphasizes the structures of the human body, and how the parts function together. Introductory topics increase in complexity beginning with a review of biochemistry, and cellular organization, and building up to studies of the major human organ systems (eg. skeletal, muscular, nervous, etc.) Emphasis is placed upon hands-on laboratory experiences, as well as practical identification of all major internal organs, specific muscles, and bones. This course is recommended for both students simply wanting to learn more about their own body, as well as those considering future medical related fields.

**BIO125S Anatomy and Physiology I- Year Long**  
*Credit Hour (s) 4  
**Prerequisite:** Has completed all NTHS requirements and/or teacher approval.  
Introduction to the structure and function of the human body. Includes the study of cells, tissues, and the following systems: integumentary, skeletal, muscular, and nervous. Three hours of lecture and two hours of lab each week.

**Zoology**  
**Prerequisite:** Biology and (or concurrent with) Chemistry  
Fee: $12.00  
A Biology grade no lower than a ‘C’ must be earned. This advanced course is a detailed study of the major invertebrate and vertebrate animal groups. Introductory topics are based on what students learned from Biology, but increase in their level of difficulty and detail. Emphasis is placed on the classification of animals by their comparative anatomy and behavior. Hands-on laboratory experience and practical identification are a major part of this class.

**Other Science Options**

**Earth & Space Science**  
**Prerequisite:** Physical Science and Biology  
Fee: $10.00  
The main areas of study are:
1. Meteorology: atmospheres, water cycle, weather systems and climate
2. Astronomy: planets, stars, the universe, and space travel.
3. Geology: earth’s structure, volcanoes, earthquakes, rocks, minerals, fossils, and the geologic time scale.
4. Oceanography and Natural Resources
Forensics
Prerequisites: Junior or senior standing, and successful completion of biology
Fee: $10.00
In this course we will be focusing on the basics of evidence collection, crime scene preservation, fingerprints, death/decomposition, ballistics, blood, trace evidence, DNA, and careers in forensics. This class will be based on principles from the following science classes: Physical Science, Biology, Chemistry, and physics. Students must have completed biology to participate and be of junior or senior standing.

Social Studies
World History
Prerequisite: None
Fee: $2.00
World History focuses on world events that have shaped society, government, and world policies from the 1700’s to present day. Students will gain insight to political, economic, and governmental development while gaining a perspective of how each of these has influenced countries worldwide.

American History
Prerequisite: None
Fee: $2.00
This course will cover development from the late 1800’s through the present. The content of the course will include history, culture, geography, economics, government, citizenship and skills used in social studies. A historical view of our nation in this world will be presented. Through this view, the student will begin to make reasonable and responsible decisions required for effective citizenship.

The 60’s
Prerequisite: Sophomore or above standing
Fee: $2.00
This is a semester class that will explore the decade of the 60’s. The students will study the Vietnam War, the Kennedy, Johnson, and Nixon presidency, the civil rights movement, and other events that continue to shape our world today.

Current Issues
Prerequisite: Sophomore standing or above
Fee: $2.00
This is a semester class that is designed to help students follow contemporary historical, political, economic, and cultural trends. The course will emphasize social studies skills and methods needed for independent study. Classroom activities will involve discussion, debates, presentations, and other individual and group projects.

Government
Prerequisite: Junior or Senior Standing
Fee: $15.00
U.S. Government covers the major elements of the Constitution and the governing of the United States. The topics to be discussed will include federalism, the three branches of government, and the Bill of Rights. The economic component will include financial literacy, the free enterprise system, and current issues in today’s economy.

PLS121S: American National Government- 1st semester
*Credit Hour (s) 3 College Credit Plus Course*
Prerequisite: Has completed all NTHS requirements and/or teacher approval.
Overview of the American system of government which examines the impact of public opinions, group interests, and organizations on the institutions of American government. Particular attention is focused on issues which relate to the politics of public policy and the decision-making process. The nature of American democracy is examined and critically analyzed.
ECO120S: Fundamentals of Economics- 2nd semester  
*Credit Hour(s) 3 → College Credit Plus Course*  
Prerequisite: Has completed all NTHS requirements and/or teacher approval.  
Introduction to microeconomic and macroeconomic principles. Includes resource allocation, economy of the United States, the role of government, forms of competition, economics of business and production, supply and demand, price, banking and money, and international trade.

SOC-1101: Introduction to Sociology- 1st semester  
*Credit Hour(s) 3 → College Credit Plus Course*  
Prerequisite: Has completed all NTHS requirements and/or teacher approval.  
A critical analysis of contemporary American society with review of major sociological theories, research methods, culture, socialization, groups, social structure, social institutions, deviance, social qualities, social processes, and social change. This college credit plus course is in an online format with a room proctor at National Trail.

PSY-1100: General Psychology- 2nd semester  
*Credit Hour(s) 3 → College Credit Plus Course*  
Prerequisite: Has completed all NTHS requirements and/or teacher approval.  
This course covers the history and systems of psychology, behavioral research methods, physiology of behavior, perception, learning, memory, consciousness, cognition, personality, lifespan development, gender, social psychology, motivation, emotion, stress, mental disorders, and therapies. This college credit plus course is in an online format with a room proctor at National Trail.

Sociology- 1st semester  
Prerequisite: Senior standing  
Credit 0.5  
A critical analysis of contemporary American society with review of major sociological theories, research methods, culture, socialization, groups, social structure, social institutions, deviance, social qualities, social processes, and social change.

Street Law-2nd Semester  
Prerequisite: Senior Standing  
Credit 0.5  
Street Law is a course that provides understanding of our legal system, its place in society and its relationship to individuals. The student will learn the social and legal background of our way of life and have opportunity to see our legal system at work. Many areas of law are discussed such as criminal, juvenile, civil, family and landlord/tenant law. Activities may include students participating in a mock trial or debate a current issue. Field trips may include the Common Pleas Court, Probate Court, Juvenile Court, jail, or Municipal Court. Street Law also includes the second half of Senior Project. The National Trail Senior Project program offers students the opportunity to practice real world skills that the business world and universities have asked high school educators to provide. Second semester expectations include producing a product, presenting a presentation to judges, and completing a portfolio.

Senior Project Independent Study- Year Long  
Credit 1.0  
Students who may not be taking an English or a Social Studies course as a senior will be required to participate in a Senior Project Independent Study. The National Trail Senior Project program offers students the opportunity to practice real world skills that the business world and universities have asked high school educators to provide. During the first semester students are expected to develop their topic, research that topic, find a mentor, and complete a research paper. Second semester expectations include producing a product, presenting a presentation to judges, and completing a portfolio. College Credit Plus students taking 50% or more classes that are for college credit are exempt from this project being a requirement but are still welcome to participate.

The Ohio Transfer Module (OTM) is a subset or a complete set of general education requirements at Ohio public colleges and universities. OTM courses are guaranteed to transfer to any of Ohio’s public institutions of higher education as an area credit, as well as equivalent courses in English and Mathematics. Courses highlighted are not listed on the OTM.

</table>

Students must choose courses from within either the 15-hour or 30-hour Pathway offered by the high school. Sinclair will work closely with high schools to develop appropriate pathways. The tables above list sample pathways and optional courses.
MIAMI UNIVERSITY
College Credit Plus (CCP)

Example of a 15-Credit Pathway
ENG 142 Life and Thought in American Literature (3 cr)
STA 261 Statistics (4 cr) or MTH 151 Calculus (5 cr)
ART 187 History of Western Art (3 cr)
HST 111 Survey of American History (3 cr)
MBI 111 Microorganisms and Human Disease (3 cr)
**Total Credits: 16-17**

Example of a 30-Credit Pathway
ENG 142 Life and Thought in American Literature (3 cr)
STA 261 Statistics (4 cr) or MTH 151 Calculus (5 cr)
ART 187 History of Western Art (3 cr)
HST 111 Survey of American History (3 cr)
PHY 111 Astronomy & Space Physics (3 cr)
PHY 103 Concepts in Physics Lab (3 cr)
PSY 111 Intro to Psychology (4 cr)
POL 241 American Political System (3 cr)
MBI 111 Microorganisms and Human Disease (3 cr)
MBI 123 Experimenting with Microbes (1 cr)
**Total Credits: 30-31**

Selection of Online Courses
CEC 101 Computing, Engineering, & Society (1 cr)
CHI 101 Elementary Chinese (4 cr)
CSE 102 Computing and Engineering (3 cr)
CSE 151 Computers, Comp Science, & Society (3 cr)
ECE 102 Computing and Engineering (3 cr)
FRE 202 Critical Analysis/French Culture (3 cr)
GEO 101 Global Forces, Local Diversity (3 cr)
GEO 121 Earth's Physical Environments (4 cr)
GLG 121 Environmental Geology (3 cr)
KNH 188 Physical Activity and Health (3 cr)
MTH 151 Calculus I (5 cr)
PSY 111 Introduction to Psychology (4 cr)
SOC 153 Sociology in a Global Context (3 cr)
SPN 201 Second Year Spanish (3 cr)
SPN 202 Second Year Spanish (3 cr)
STA 261 Statistics (4 cr)
THE 191 Experiencing Theatre (3 cr)
